DIGIPRANA RECORDS 004: "THE SOUNDS OF PUERTO RICO"
DIGITAL MUSIC RELEASE & FALL TOUR

On November 6, 2007, Digiprana Records will be releasing its 4th EP entitled "The Sounds of Puerto Rico." The release will feature two productions by DJ Kermit: the top charting "NuShift" (#7 June 2007 - Richmond Pool [CAN]) as well as the captivatingly eerie "Dead Roads." "Bar en la Costa" by Josh Montalvo, and "Sexi" by Flavio, complete this tech-electro set of grooves for late-night dancing on the beach.

With support from Digiprana label head, JD Turbine, and New York City's DJ Uch, The Sounds of Puerto Rico artists will set off their four-day promotional tour on November 1 with a track preview mix broadcast on 90.3FM from NYC. Later that Thursday evening, DJ Kermit and Flavio team up with JD Turbine & Uch to perform at Pink Skirt, a long running San Juan venue known for supporting electronic music in Puerto Rico.

On the afternoon of Friday, November 2, JD Turbine will perform an exclusive Digiprana Sounds of PR radio mix airing on 107.1 VybeFM in Miami, Florida. Come night time, JD Turbine, Uch and Flavio hook up with live PA trio Ramey Bass—featuring Kermit, Josh Montalvo & The Mental—for a beach side performance at Coast Bar in Isabela, PR.

Ready to dominate the airwaves, The Sounds of Puerto Rico DJs will be in the mix from the studios of 100.7FM (Metro PR) and 103.7FM (West PR) on Saturday, November 3. This two-hour broadcast will begin at midnight and be hosted by Dj Emil Cedeño. To close out the tour, JD Turbine, Uch, Kermit, Flavio and Josh Montalvo share the controls to welcome Sunday morning at Soulful Gathering's Showtime, San Juan's best afterhours event hosting innovative local and international electronic music talent.

Launched in September 2007, Digiprana records is a brand new electronic music label created by DJ/Producer and radio personality, JD Turbine of Sirius Satellite and 90.3FM in New York. The Sounds of Puerto Rico and all Digiprana record releases are distributed by INgrooves and can be found at major digital download retailers (Beatport, DJ Download, iTunes, Napster and more). The Digiprana Sounds radio broadcast airing weekly from New York City can be heard on demand by visiting digiprana.com.
